Fixed Contribution

The Fixed Contribution is calculated by applying a rate of 2.5 *per centum* to the minimum Net Tangible Asset requirement which licence holders are required to maintain.

In case where a licence holder has a derogation from maintaining minimum Net Tangible Assets under its investment services licence because it is required to maintain financial resources requirements under another licence, the Fixed Contribution is calculated on the minimum Net Tangible Asset as if the licence holder is deemed to maintain such requirements under its relevant investment services licence category.

Payment of the Fixed Contribution to the Scheme shall be within four months from the licence holder's financial year end.

Variable Contribution

The Variable Contribution is calculated by applying a percentage rate to the Total Revenue of the licence holder on an annual basis. The percentage rate for the Variable Contribution is set at 0.1 *per centum*.

The Variable Contribution shall be accounted for in the financial year when the Fixed Contribution is paid.

Investor Compensation Scheme Reserve

The Variable Contribution shall be held by the licence holder in a reserve so that the funds will be made available within 30 calendar days from the time when the Scheme makes a call on such funds in terms of regulation 16.

Funds in this reserve, which shall be called the “Investor Compensation Scheme Reserve” in all accounts and documents, may be invested by the licence holder having regard to the need for prudence and within specified parameters, as specified hereunder.

If the Investor Compensation Scheme Reserve is more than the Variable Contribution then no transfer to the Investor Compensation Scheme Reserve will be made. This implies that when a Variable Contribution is higher than the Investor Compensation Scheme Reserve, the licence holder shall be required to make a Variable Contribution for the difference to ensure that the higher amount is always on reserve.

The Investor Compensation Scheme Reserve shall never be less than Lm300.

Investments of funds on reserve by the licence holder

Funds comprising the Investor Compensation Scheme Reserve can only be invested in listed bonds (debt instruments) and/or placed in an interest bearing bank account subject to the following:

- Minimum 25 per cent of the total amount has to be maintained in an Lm-denominated interest bearing bank account (maximum 60 day call).
- Maximum 75 per cent invested in listed debt instruments of which:
 - minimum 50 per cent (in this case 37.5% of the total Reserve) has to be invested in Malta Government Stocks;
 - the balance (37.5 per cent of the total Reserve) may be invested in debt instruments issued by local or international entities, with an investment grade of not lower than A (Moody’s or Standard & Poor’s), where applicable.

The above parameters are only indicative and may be changed by a directive by the competent authority, upon consultation with the Management Committee and licence holders.

Financial reporting of the reserve

The licence holders shall be required to insert a suitable note in the annual financial statements as to the market value of the instruments in which the reserve has invested, together with a maturity schedule according to the type of instrument.

The amount on reserve will be deducted in full as a liquid capital adjustment (thus reducing liquid capital) for the purposes of calculating the licence holder’s financial resources in its financial return submitted in terms of its licence conditions.

Maximum limit of payment

Licence Holders will be required to contribute to their Investor Compensation Scheme Reserve each year until such time that aggregate fixed contributions paid to the Scheme and accumulated reserves held by licence holders by way of the Variable Contribution amount to Lm1,000,000.

Third Schedule***Professional Indemnity Insurance
(Regulation 29)***

Professional Indemnity cover is reduced to twice the relevant income for the next 3 years, after which another review of the operation of the Scheme is conducted. However, the competent authority should reserve the right to require licence holders to increase indemnity to three times the relevant income where considered appropriate. Moreover, the minimum indemnity limits as set out in the Investment Services Guidelines will be retained (Lm 50,000 per claim and Lm250,000 in aggregate).
