“FIRST SCHEDULE

(Regulation 36)

A Residential Premises Service shall be billed, for any period or periods as Enemalta may, from time to time determine, in accordance with the following charges and tariffs:

1) Without prejudice to the other provisions of these regulations a Residential Premises Service shall be subject to the following Annual Service Charge:

(a) up to the 31st December 2008 a charge of €27.95, irrespective of whether the service is a Single Phase Service or a Three Phase Service; and

(b) from the 1st January 2009 a charge of €65 for a Single Phase Service and a charge of €195 for a Three Phase Service; and

2) Without prejudice to the other provisions of these regulations a Residential Premises Service shall be subject to the following Consumption Tariff based on a cumulative consumption per annum:

- i) For every kWh of the first 2,000 kWh..... €0.161; and
- ii) For every kWh of the next 4,000 kWh.....€0.173; and
- iii) For every kWh of the next 4,000 kWh.....€0.189; and
- iv) For every kWh of the next 10,000 kWh.....€0.209; and
- v) For every kWh of the remaining consumption.....€0.232; and

3) Without prejudice to the other provisions of these regulations a Residential Premises Three Phase Service exceeding 60 Amps per phase shall also be subject to a Maximum Demand Tariff at the rate of €21.05 per annum per kW of the Maximum Demand in any period during the year.

4) Without prejudice to the other provisions of these regulations a Residential Premises Service, which is provided to a Primary Residence or a Secondary Residence, shall be eligible to an Eco Reduction of the amount due for consumption of electricity for the billing period in question, which shall be calculated in accordance with the following rates, on a pro rata basis of the relative annual cumulative consumption:

i) If no individual is registered on a Residential Premises Service, the Service shall not be eligible for an eco-reduction;

ii) If only one individual is registered on a Residential Premises Service, the Service shall be eligible for an eco-reduction of 25% of all the amount due for consumption of electricity for the billing period in question if the consumption shall not exceed the pro rata equivalent consumption of 2,000 kWh per annum; or

iii) If more than one individual is registered on a Residential Premises Service, the Service shall be eligible for an Eco Reduction

a) of 25% of all the amount due for consumption of electricity for the billing period in question if the consumption shall not exceed the pro rata equivalent of 1,000 kWh per annum per individual registered; or

b) of 15% of all the amount due for consumption of electricity for the billing period in question if the consumption shall exceed the pro rata equivalent of 1,000 kWh per annum per individual registered but shall not exceed or be equal to,

the pro rata equivalent consumption of 1,750 kWh per annum per individual registered;

Provided that no one individual shall be registered on more than one Service at the same time and that the Eco Reduction shall only apply for Primary Residences and Secondary Residences;

Provided further that an Eco Reduction shall only be calculated on the basis of an Actual Reading of the consumption taken by a representative of Enemalta or by a Consumer Reading provided to a representative of Enemalta through an established procedure, by the consumer registered on the Service, and notwithstanding the provisions of any other law, if an Actual Reading or a Consumer Reading as defined in this proviso shall not be available for the billing period in question, the Service's eligibility for an Eco Reduction for that billing period shall be forfeited permanently.

5) All the above rates are inclusive of Value Added Tax.”

- viii) For every kWh of the next 4,000,000 kWh.....€ 0.114; and
- ix) For every kWh of the remaining consumption.. € 0.088; or

c) The registered consumer on a Non-Residential Premises Service that is rated above 100 Amps per phase may apply to be metered and billed in kVAh at the following tariffs:

- i) For every kVAh of the first 2,000 kVAh.....€ 0.096; and
- ii) For every kVAh of the next 4,000 kVAh€ 0.103; and
- iii) For every kVAh of the next 4,000 kVAh€ 0.115; and
- iv) For every kVAh of the next 10,000 kVAh€ 0.129; and
- v) For every kVAh of the next 40,000 kVAh€ 0.144; and
- vi) For every kVAh of the next 40,000 kVAh€ 0.131; and
- vii) For every kVAh of the next 900,000 kVAh€ 0.119; and
- viii) For every kVAh of the next 4,000,000 kVAh..€ 0.108; and
- ix) For every kVAh of the remaining consumption € 0.084; or

d) The registered consumer on a Non-Residential Premises Service that is rated above 100 Amps per phase and has a consumption exceeding 5,500,000 kVAh may apply to be billed at day and night kVAh rates at the following tariffs:

day consumption shall be subject to the following tariff:

- i) For every kVAh of the first 2,000 kVAh.....€ 0.099; and
- ii) For every kVAh of the next 4,000 kVAh€ 0.106; and
- iii) For every kVAh of the next 4,000 kVAh€ 0.118; and
- iv) For every kVAh of the next 10,000 kVAh€ 0.132; and
- v) For every kVAh of the next 40,000 kVAh€ 0.147; and
- vi) For every kVAh of the next 40,000 kVAh€ 0.133; and
- vii) For every kVAh of the next 900,000 kVAh€ 0.122; and
- viii) For every kVAh of the next 4,000,000 kVAh..€ 0.111; and
- ix) For every kVAh of the remaining consumption € 0.087; and

night consumption shall be subject to the following tariff:

- i) For every kVAh of the first 2,000 kVAh.....€ 0.093; and
- ii) For every kVAh of the next 4,000 kVAh€ 0.100; and
- iii) For every kVAh of the next 4,000 kVAh€ 0.112; and
- iv) For every kVAh of the next 10,000 kVAh€ 0.126; and
- v) For every kVAh of the next 40,000 kVAh€ 0.141; and
- vi) For every kVAh of the next 40,000 kVAh.....€ 0.128; and
- vii) For every kVAh of the next 900,000 kVAh€ 0.116; and
- viii) For every kVAh of the next 4,000,000 kVAh...€ 0.105; and

Provided that the Corporation shall, in its discretion, determine whether the Hotel or Guesthouse or Factory applying for the Reduced Tariff in terms of this regulation, be charged in terms of this regulation or in terms of regulation 2) to this Schedule:

Provided further that the Corporation may, in the case of a Hotel or a Guesthouse or a Factory, having multiple activities, determine which activities should be charged the Tariff established by this regulation and which activities should be charged the Tariff established by regulation 2) to this Schedule and the Corporation may order the installation of sub-meters to discern between the consumption used for the various activities.

4) Without prejudice to the other provisions of these regulations a Non-Residential Premises Three Phase Service exceeding 60 Amps per phase shall also be subject to a Maximum Demand Tariff at the following rates:

i) If consumption does not exceed or is equal to 5,000,000 kW, at a rate of €20.50 per kW of the Maximum Demand in any period during the year;

ii) If consumption does not exceed or is equal to 5,500,000 kVA, at a rate of €19.20 per kVA of the Maximum Demand in any period during the year;

iii) If consumption exceeds 5,000,000 kW or 5,500,000 kVA, at a rate of €17.20 of the Maximum Demand in any period during the year;

5) All the above rates are exclusive of Value Added Tax.”.
